

Metro X NYC map

- “Statin Island Ferry”, “L”, and “S” lines score normally, but do not accept transit cards, so can only be completed indirectly by using transit cards on the connecting lines. The “Free space” transit card is needed to complete “S”
- “S” is worth 2 points for completion. There is no additional bonus for the first player to complete it.
- All maps are the same, but with different background transparencies. Color accessible version is on the last page.

All lines, stations, and connections used exist in the New York City subway system.

Did you know? The New York City subway has 472 stations, more than any other subway system in the world.

Key

The subway operates 24 hours a day, but not all lines operate at all times. Get our latest information Center of 311 for more information in English or Spanish (24 hours) or visit our website for help in all other languages (24/7) to 311.

visit www.mta.info

To show service more clearly, geography on this map has been modified.

**METRO X
 NYC**

This map shows weekday service. On weekends and late nights, these routes change:

Weekends
