

SCENARIO #8

These Monarchs are definitely starting to annoy me! I can only imagine how YOU feel, my keep. King Andrew seemed to focus his attacks on the library? Very efficiently I might add... he burnt the whole thing down to your foundations. Let's build a bigger one! Maybe he was afraid we would summon the Dragon?

News from above ground... King James is on the horizon. If they are being consistent, he will be stronger than Marcus and Andrew. We should set up an ambush of 3 high ranked minions.

Don't forget. We will need that Library for later.

WIN: Defeat King James with 3 Rank 7+ minions (these 3 minions die).

LOSE: HP reduced to 0 OR Monarch is undefeated.

Turn Deck Set up: Shuffle all Turn cards

(shuffle Monarch/JK into the 4th Turn Deck)

*minions & resources carry over from scenario #7 (??? = carried over)
