

## SCENARIO #9

Nicely done, my Keep! That went better than the last attack. Your minions kept you in perfect condition. No rooms were damaged, at all, this time. I'm kinda looking forward to the next King of the, so called, Heroes of the Light!

Hmm... maybe I spoke too soon... King Alex has already entered the grounds. Time is tight right now and for that I am sorry. My pets will give us a far greater warning next time. Another 3 high ranked minions should be enough. But I fear we may need the Dragon for their final attempt.

WIN: Defeat King Alex with 3 Rank 8+ minions (these 3 minions die).

LOSE: HP reduced to 0 OR Monarch is undefeated.

Turn Deck Set up: Shuffle all Turn cards

(shuffle Monarch/JK into the 3<sup>rd</sup> Turn Deck)

\*minions & resources carry over from scenario #8 (??? = carried over)
